

SAFETY DATA SHEET

1. Identification

Product identifier Other means of identification Recommended use	ANVOL™ Blue Stabilizer None. Fertilizer Additive.
Recommended restrictions	None known.
Manufacturer/Importer/Supplier/	Distributor information
Manufacturer/Supplier Emergency	Koch Agronomic Services, LLC 4111 E 37th St N Wichita, KS 67220 US kochmsds@kochind.com 1.866.863.5550 For Chemical Emergency Call CHEMTREC day or night USA/Canada - 1.800.424.9300 Mexico - 1.800.681.9531 Outside USA/Canada - 1.703.527.3887 (collect calls accepted)

2. Hazard(s) identification

Physical hazards	Not classified.	
Health hazards	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 1
	Reproductive toxicity	Category 1B
OSHA defined hazards	Not classified.	

Label elements

Signal word	Danger
Hazard statement	Causes serious eye damage. Causes skin irritation. May damage fertility or the unborn child.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Mixtures

Chemical name		CAS number	%	
Non-hazardous Components		Proprietary	< 45	
Duromide		2093385-47-6	20 - 30	
N-(n-butyl)-thiophosphoric triam	ide	94317-64-3	10 - 20	
N-methyl-2-pyrrolidone		872-50-4	< 10	
Proprietary Surfactant blend		Proprietary	< 10	
Composition comments	All concentrations are in percent by weight. The specification or NPK value(s). NPK content is product specification sheets obtained from su	on specified sales orders, cus		
4. First-aid measures				
Inhalation	Move to fresh air. Call a physician if symptom	is develop or persist.		
Skin contact	Remove contaminated clothing. Wash with ple medical advice/attention. Wash contaminated		irritation occurs: Get	
Eye contact	Immediately flush eyes with plenty of water for present and easy to do. Continue rinsing. Get			
Ingestion	Rinse mouth. Get medical attention if sympton	ms occur.		
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include vision. Permanent eye damage including blind and pain.			
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treas Symptoms may be delayed.	at symptomatically. Keep victir	m under observation.	
General information	(show the label where possible). Ensure that	concerned: Get medical advice/attention. If you feel unwell, seek medical advice el where possible). Ensure that medical personnel are aware of the material(s) take precautions to protect themselves. Show this safety data sheet to the doctor in		
5. Fire-fighting measures				
Suitable extinguishing media	Water spray. Carbon dioxide (CO2). Water fo	g. Foam.		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as th	is will spread the fire.		
Specific hazards arising from the chemical	Fire may produce irritating, corrosive and/or to	oxic gases.		
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighti the workplace. Self-contained breathing appa case of fire.			
Fire fighting equipment/instructions	Use standard firefighting procedures and conscionation of the standard firefighting procedures and constainers from fire area if you can do so with		lved materials. Move	
Specific methods	Use standard firefighting procedures and con-	sider hazards associated with	other involved materia	
General fire hazards	This product is not flammable. Will burn if invo	olved in a fire.		
6. Accidental release meas	sures			
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep per appropriate protective equipment and clothing or spilled material unless wearing appropriate Local authorities should be advised if significat protection, see section 8 of the SDS.	g during clean-up. Do not toucl protective clothing. Ensure ac	n damaged containers lequate ventilation.	
Methods and materials for	Use water spray to reduce vapors or divert va	apor cloud drift.		
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.			
	Small Spills: Wipe up with absorbent material remove residual contamination.	(e.g. cloth, fleece). Clean surf	ace thoroughly to	
	Never return spills to original containers for re	e-use. For waste disposal. see	section 13 of the SDS	
Environmental precautions	Avoid discharge into drains, water courses or			

7. Handling and storage

Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Avoid contact with skin and clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US. Workplace Environmental Exposure Level (WEEL) Guides

Components	Туре	Value	
N-methyl-2-pyrrolidone (CAS 872-50-4)	STEL	120 mg/m3	
		30 ppm	
	TWA	40 mg/m3	
		10 ppm	

Biological limit values

ACGIH	Biological	Exposure	Indices	

Components	Value	Determinant	Specimen	Sampling Time
N-methyl-2-pyrrolidone (CAS 872-50-4)	100 mg/l	5-Hydroxy-N-m ethyl-2-pyrrolid one	Urine	*

* - For sampling details, please see the source document.

Exposure guidelines

Follow standard monitoring procedures.

US - California OELs: Skin designation

N-methyl-2-pyrrolidone (CAS 872-50-4)

US WEEL Guides: Skin designation

N-methyl-2-pyrrolidone (CAS 872-50-4)

Can be absorbed through the skin.

Can be absorbed through the skin.

```
Appropriate engineering
controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If
applicable, use process enclosures, local exhaust ventilation, or other engineering controls to
maintain airborne levels below recommended exposure limits. If exposure limits have not been
established, maintain airborne levels to an acceptable level. Provide eyewash station and safety
shower. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and
spray mist.
```

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear approved safety glasses or goggles.	
Skin protection		
Hand protection	Impervious gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.	
Other	Wear appropriate clothing to prevent repeated or prolonged skin contact.	
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of mist, use suitable respiratory equipment with particle filter. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.	

9. Physical and chemical properties

Appearance	Blue liquid.
Physical state	Liquid.

Form	Liquid.
Color	Blue.
Odor	Slight.
Odor threshold	Not available.
рН	7.78
Melting point/freezing point	1.4 °F (-17 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Soluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	112 cP
Other information	
Density	9.26 lb/gal
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal temperature conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Extreme temperatures.
Incompatible materials	Acids. Strong oxidizing agents. Strong reducing agents.
Hazardous decomposition products	During combustion: Carbon oxides. Nitrogen oxides. Sulfur oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation Prolonged inhalation may be harmful.		Prolonged inhalation may be harmful.
Skin contact		Causes skin irritation.
Eye contact		Causes serious eye damage.
Ingestion		May cause discomfort if swallowed.
Symptoms relate physical, chemica toxicological cha	al and	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain.
Information on to	xicological effe	ects

In

May cause discomfort if swallowed. Acute toxicity

Components	Species	Test Results

Mobility in soil	This produ	This product is water soluble and may disperse in soil.				
Other adverse effects		No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.				
13. Disposal consideration	ons					
Disposal instructions		Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.				
Local disposal regulations	Dispose in	Dispose in accordance with all applicable regulations.				
Hazardous waste code		The waste code should be assigned in discussion between the user, the producer and the waste disposal company.				
Waste from residues / unused products	residues. T	Dispose in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).				
Contaminated packaging		Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
